Dear Bill:

I want to take this opportunity to express my appreciation for the excellent service that Driscoll Strawberry Associates received during our recent project in Ballico.

New Electric was instrumental in the success of the project. Your effort to insure that this project was completed on time, the quality of construction, your willingness to coordinate your work with all of the other contractors, and all of the help with the Merced County Officials is all greatly appreciated.

This project was indeed a success. We are now able to handle our plants better than we ever have before.

It was a pleasure working with New Electric, Inc.

Sincerely,
